IS CRABBE TO MAKE WAY FOR A DARK HORSE?

BELIEF OF MANY THAT HE WAS PULLED DOWN BY THE GOVERNOR TO GIVE THE ANTI-BROWN SENTIMENT A CHANCE TO UNITE ON SOME ONE ELSE—HARRY VON HOLT AND COL. JONES ARE TALKED OF.

That C. L. Crabbe withdrew to clear the way for a dark horse to run against Brown and that he was pulled down by the influence of the governor, are reports being discussed today. Crabbe had quite a long conference with Governor Carter the day before yesterday and though nothing is known of the subject of their discussion, it is thought likely that the county political situation was talked of, and that the governor was able to convince Crabbe that for the best interests of the party and the community he had better pull out of the fight.

The withdrawal of Crabbe, it is claimed, has the effect of giving another man against Brown a better chance. It makes possible a consolidation of

the anti-Brown sentiment which was not possible before because the anti-Brown men were also opposed to C. L. Crabbe.

In this connection the name of Von Holt is being mentioned some more, and there is talk of Col. Jones and Paul Jarrett running as a team for sheriff and deputy as an administration ticket.

The announcement that Clarence L. Crabbe in announcing his withdrawal as a candidate for sheriff, at the meeting of his precinct club, also announced his candidacy for supervisor, is an error.

He announced simply that he had withdrawn as a candidate for sheriff. The club then took the matter up and of its own initiative proposed him for supervisor.

SITE FOR MAKAPUU LIGHT IS SELECTED

Admiral Very and Captain Slattery returned yesterday from selecting the place will be located on the sea most point—will stand 300 feet above the sea level.

Admiral Very, U. S. N., and Captain Slattery the army engineer officer, returned from Makapuu Point yesterday afternoon. They selected the site for the new lighthouse at that point and every effort will be directed now toward the prompt construction of the light.

The site selected is on the slope of the seamount point of Makapuu. The site for the lighthouse is 300 feet above sea level in a little saddle about midway between the summit and the sea. The reason for placing the light below the summit is the fact that the light would at times be observed by clouds if placed on the high point. By having the light located on the proposed site

A LAND HUNGRY CROWD

BIG CROWD AT THE JUDICIARY BUILDING AT NOON TO BUY THE HAULA LOTS OFFERED FOR SALE—THE PROPERTY IS PASTORAL LAND IN KOOLAUFERED WITHOUT RESIDENCE REQUIREMENT—THE BIDDING WAS A SURPRISE.

A crowd of land-hungry people gathered at the Judiciary building at noon today to buy Hauula lots. The bidding was a surprise and a revelation of strong demands for land holdings. The lots sold are on the other side of this island, near Kahuku plantation. At the start they began to go for a good deal over \$100 per acre.

Lot 14, 6.66 acres, at an upset price of \$166.50, jumped rapidly up to \$675, at which price it went to J. Christopherson, head luna of the plantation. W. Peterson, G. Schuman, F. W. MacKinney, W. W. Thayer and other Honolulu men competed.

Number 13, 8.59 acres, went up to \$1015, and was bought by O. K. Olsen, also an employee of the plantation.

The crowd began to murmur that the plantation was getting the land, but the bidders protested that they bid for themselves. Commissioner Pratt announced that he had the absolute assurance of J. B. Castle that the plantation would not buy the land.

Nevertheless, when Pratt made his last call "and sold to—" there was a reply from the crowd, "the plantation."

Number 12, 7.12 acres, at an upset price of \$178, went to A. Kekai for \$925. A son of luna Christopherson was his main competitor.

Number 11 went to Mrs. H. M. Ayers for \$576. Christopherson again being the rival. It is 10 acres offered at upset price of \$25.00.

Number 10 went to W. L. Peterson for \$400. The upset price was \$215 and the area 8.60 acres.

MONIED MEN.

Miss A. Wong Kong, after quite a battle with Christopherson, got number one, 9.08 acres, offered at \$237, for \$550, William Savidge doing the bidding for her.

Lot No. 2 was sold to J. N. Wood, for \$400. It was at an upset price of \$166.25 and consists of 6.65 acres.

Number 3, 9.72 acres, with \$75 improvements to be paid for in cash, offered at an upset price of \$243, was sold to R. McKean for \$600.

Number 4, 12.01 acres, upset price \$300.50, went to Joseph Hay at \$540.

Number 5, 4.46 acres, upset price \$111.50, was sold to Ida C. Burnett, for \$691.

Number 6, 10.43 acres, upset price \$260.75, was sold to Emily Savidge for \$555.

Number 7, 4.10 acres, upset price \$102.50, was sold to Alfred Johnson for \$355.

Number 8, 5.67 acres, upset price \$141.75, was sold to L. B. Wood for \$515. Number 9, the last one sold, 4.52 acres, upset price \$113, was sold to W. W. Carlyle for \$225.

The sale is regarded by Commissioner Pratt as a great success. It is the first sale of land of this character without residence conditions in the deed. In this case the purchasers may acquire title without living on the land and they are required to make only very trifling improvements. It is believed that speculators formed a considerable part of the crowd of bidders.

Water Reaches Manchuria's Flour Cargo

FIVE HUNDRED BAGS OF FLOUR FOUND TO HAVE BEEN DAMAGED VALPARAISO EARTHQUAKE THOUGHT TO HAVE BEEN INDIRECTLY RESPONSIBLE FOR THE MANCHURIA BEING SET OFF HER COURSE.

Some of the cargo of the S. S. Manchuria has been found to have been damaged by water that leaked through the bottom of the vessel. Five hundred sacks of flour were damaged by sea water day before yesterday. This cargo was taken out of hold No. 6 which is in the forward part of the vessel.

While the damage to the cargo does not amount to very much, nevertheless the fact is quite significant, showing as it does, that the bottom of the vessel has been damaged more or less. The leaks are fortunately very slight however and the vessel is perfectly able to handle all of the water that seeps into her. Captain Saunders has been unable to ascertain the extent of the damage to the bottom of his vessel. That the vessel has not sprung worse leaks is a tribute to the magnificent stability of her construction.

According to private reports received from San Francisco the Pacific Mail Company has turned the salvaging of the vessel over to the underwriters. This report is evidently incorrect. H. Hackfeld and Company have been acting for the owners of the vessel in the salvaging of her and will continue to do so.

The fact that Captain Pillsbury representing the marine underwriters at San Francisco had sailed with Captain Metcalf for Honolulu, was taken as an

Sugar Goes Up to \$80 A Ton

FIRST TIME IT HAS REACHED THAT FIGURE SINCE JULY 1905. 75,000 TONS AFLOAT.

Sugar has reached four cents a pound \$80 a ton. It has not been that high before since July 12, 1905 when it dropped from 4.125 cents a pound to 3.99 cents. It reached its lowest point February 8, 1906, 3.36 cents. Since then it has gradually advanced.

There is at the present time approximately 75,000 tons of sugar afloat on its way to market, all of which will benefit by this rise in price, assuming that the rise is maintained.
